Spiritual Healing With Astrology (David Cochrane)

The astrology chart reveals a person's deepest motivations and goals for this life time. Your birth chart is much more than a description of personality characteristics. Virgo is not just fussy and fastidious. Libra is not just pleasant and compromising. In fact, these personality traits are not completely accurate for every person, but the goals and motivation of the zodiac signs are always true because the essence of astrology is how life is striving to evolve and what the next step in your path is.

By becoming aligned and connected to your soul purpose, healing occurs and wholeness is achieved. The effects of proper attunement to your spiritual purpose can be extraordinary. David will lead us on an inner journey where we discover clear and practical ways to accelerate our growth and our development and the growth and development of our clients. You can target very specific issues and ways for people to develop spiritually and achieve healing and wholeness at every level.

July 21 (Friday night) = 7:00 pm to 9:00 pm

The Spiritual Dimension of Zodiac Signs (David and Fei Cochrane)

David will give a whole day workshop on the "The Spiritual Dimension of Zodiac Signs"

1) 15-30 Minutes guided meditation. The day will begin with guided meditation by David, followed by a guided healing meditation with Fei. People with something to heal can attend and receive this healing. This will help all attendees tap into their spiritual self in

order to absorb, feel, and understand the nature of the lecture itself.

2) 10 minutes break: Will give the attendees to relax, drink water and gather themselves together. Get ready for the Spiritual Dimension of Zodiac Signs workshop

3) Workshop begins. David will take us into a deeper understanding and appreciation of each zodiac sign. We will see that behind the personality traits there is a message, a path, and a challenge. There is a step for us to take in our evolution. All attendees who have a birth time from a birth certificate or birth record are invited to submit their complete birth data ahead of time. All attendees who submit their charts will have their charts presented in class with about 10 minutes of analysis of some of the important zodiac signs in their charts. This will help all of us experience how these ideas work in real life with real people. We experience how we can apply these ideas to our own charts and the birth charts of others.

4) Questions and Answers: There will be some time during the workshop to ask questions and if there is enough time, there will also be a question-and-answer period at the end.

Fee: (MX\$1,800) Coffee break and lunch and dessert
